

## SchoolPRO + Consent2Go

**We are pleased to announce  
a strengthening in our  
partnership.**

Consent2Go is an end-to-end platform that equips schools to plan excursions, manage event risk and maintain medical records.

### What's new

SchoolPRO appreciates the enormity of work surrounding risk management and compliance for schools required to ensure the safety of students and staff.

The depth of the Consent2Go system for schools is impressive. With our rigorous evaluation, and now with the deeper integration we are even more confident that Consent2Go is the best practical compliance management tool available to schools today.

The new, improved, and secure integration allows for the automation of school record processes like never before, and presents these within the school and in real time powers functionality of the Consent2Go system.

It is the 'best of breed' with a user-friendly workflow that saves time, effort for staff and parents whilst ensuring school requirements are met.

### Get started with Consent2Go
